JAMESTOWN MALL
REDEVELOPMENT

Thanks for Coming to the Public Forum!

The project team would like to thank everyone that came out to the first public forum for the Jamestown Mall Market Analysis and Feasibility Study held on Wednesday, June 29, 2022 at the Saint Louis Zoo's WildCare Park in North County. Over 200 residents and business owners stopped by, talked one-on-one with project team members and offered feedback on the initial six land use scenarios. These six scenarios served as the starting point for analysis and evaluation. They focused on a range of development possibilities such as new housing, corporate campus and office parks, manufacturing, logistic centers, technology and research parks, and renewable energy.

Residents and business owners who were unable to attend the meeting in-person, had the opportunity to weigh in and share their thoughts online through the project's website. All project information and materials presented at the public forum were made available online.

Please visit the project website at www.imaginejamestownmall.com to view materials presented.

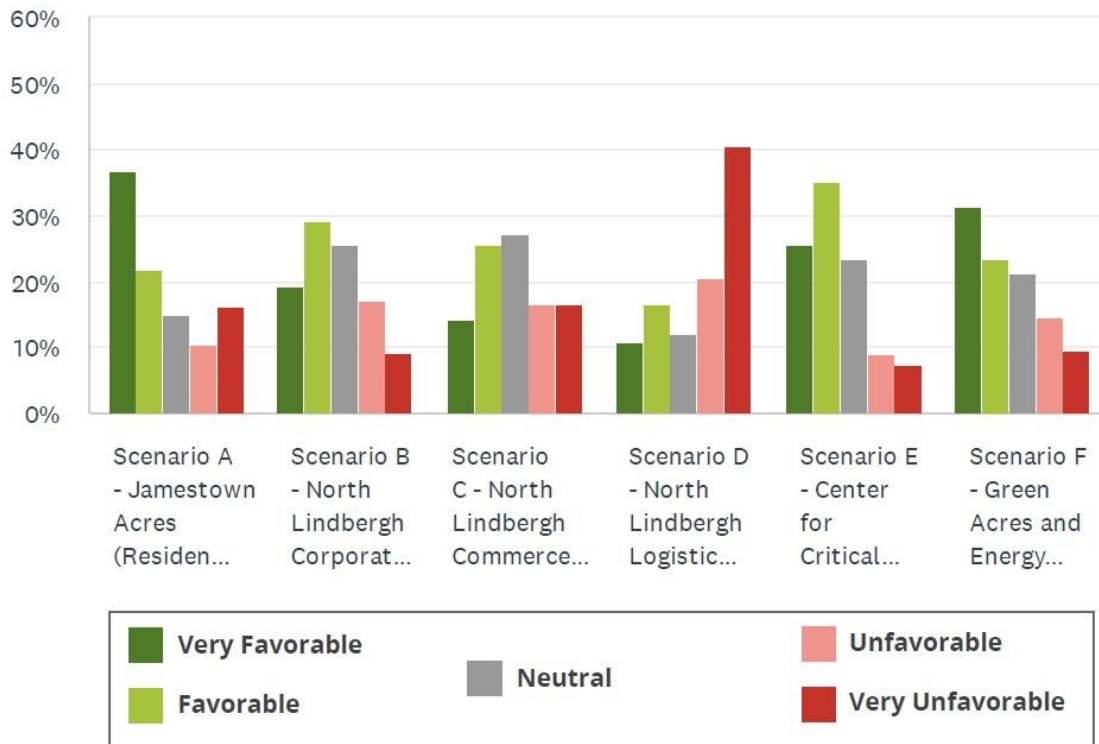

THE RESULTS ARE IN!

Comment Results Are In...

Comment results from the Public Forum are available on the project's website. You can [click here](#) to view all of the comments submitted, including those submitted online through the online comment form that was made available.

After reviewing the scenarios and evaluation criteria, how do you view each scenario in terms of favorability?

NEXT STEPS

The project team is busy analyzing all of the input and feedback received. The initial six land use scenarios will be narrowed down to 2 or 3 scenarios that will advance forward for further evaluation and final analysis. The final scenarios may combine aspects from the initial six scenarios. These scenarios will be presented to the community for review and comment at the next public forum to be held in September. So be on the lookout for more information and details in the coming weeks.

Do You Have More Question?
